

Marine Minerals for Health Marigot Ltd.

Seaweed Calcium Complex

Supported by a growing research program

Natural aid to immunity

Marine Magnesium

Bioactivity aided by additional trace elements

AQUAMIN Mg MARINE MAGNESIUM

SOURCE: IRELAND

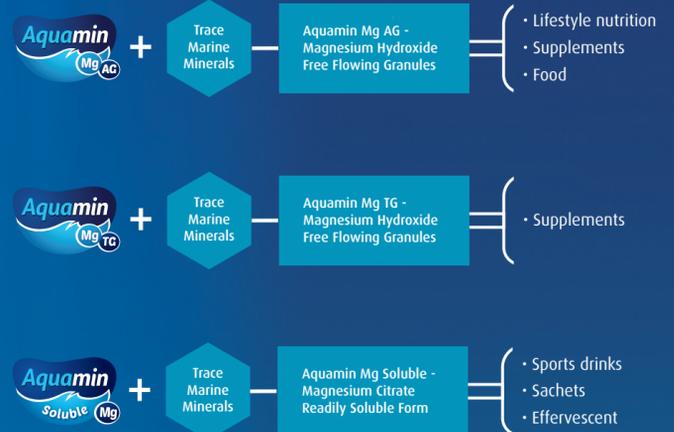

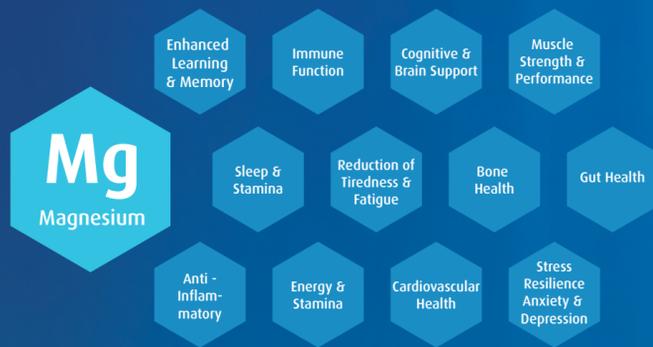

FEATURES

- Not just Magnesium, contains important co-factors and trace elements from seawater
- Non-Dolomite Form - Marine Source
- Proven High Accessibility

GRADES & APPLICATIONS

Inclusions for wide range of food, functional beverages and dietary supplements

AQUAMIN SEAWEED CALCIUM COMPLEX

SOURCE: ICELAND

GRADES & APPLICATIONS

Aquamin meets and exceeds the challenge for formulators to select a suitable form of calcium that provides minerals without affecting flavour, solubility, bioavailability, sensory properties, and the mouth feel of the finished product.

FEATURES

Distinctive physical and chemical structure offers

- Superior organo-leptic qualities
- Enhanced texture
- Lower sedimentation
- Reduced astringency
- Improved mouthfeel

Proven in independent studies in foods and beverages

Rare biochemical functionality, shown to impact bone, joint and digestive health:

- PTH suppression (long and short term)
- Anti-inflammatory activity (TNF α , IL-1 β)
- Pain and stiffness reduction (OA)
- Bone formation enhancement

Adding value to your application

- 100% Natural
- Plant Origin
- Clean Label
- Neutral Taste
- Allergen Free
- Lactose Free
- Slow release buffering
- Thermostable

Anti-inflammatory properties of Aquamin and latest research in digestive health proves positive influence of minerals on the microbiome, opening new opportunities for innovation, developing next generation products boosting natural immunity.

A versatile ingredient for use in solid and semi-solid food production, in products including:

- Baking, cereals and snacks
- Rice, pasta, noodles, congee
- Soya, oat and rice beverages
- Ice cream and confectionary
- Dairy
- Instant Drinks
- Processed Meat, Fish & Poultry

Dual benefit of a clean tasting marine minerals & range of production benefits.

Aquamin AG has been developed for use in plant-based beverages providing improved dispersion and suspension properties.

Aquamin S is formulated for use in low pH applications, such as:

- Juice & beverage
- Fruit Preparations
- Dairy Products
- Frozen Desserts
- Confectionary / Candies

Aquamin soluble is specifically designed for use in low pH applications and clear drinks. This grade is ideally suited for:

- Sports drinks
- Functional beverages
- Powdered sachets

A granulated grade of Aquamin Lithothamnion for tablet and capsule applications.
